Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

/(TAILED ACTION

This application was filed 6/29/2004 and is a 371 of PCT/US02/21297 (7/29/02) and claims benefit of 60/350150 (1/17/02). Claims 1-7, 13-55 and 57 are before the Examiner.

Election/Restrictions

1. Applicant's election without traverse of group I in the reply filed on 1/8/07 is acknowledged.
2. Claims 1-7 and 57 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 1/8/07. Claim 49, which has not been amended to have the sum of m+n to be 4 will be examined to the extent that it reads upon the elected grouping.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 13-18, 35-37, 40, 44 and 46 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 13, 18, 40 and 46 are unclear as to what the sum of $m+n$ is due to the amendment appearing as if all the numbers of 2, 3, 4, 5 or 6 being struck out. It is suggested that the amendment be clarified to show that the sum of $m+n$ is 4.

Claim 35 is ambiguous because V is preferably several moieties. It is suggested that this be changed such that V is several moieties.

Claims 13-17, 36-37, 40 and 44 are ambiguous because when V is H then T cannot be connected to a H. Correction is required.

5. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

6. Claims 13-52 and 54-55 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for compounds wherein m is 2 and n is 2, does not reasonably provide enablement for compounds where m or n are other than 2. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to pharmaceutical arts to make or use the invention commensurate in scope with these claims. The closest art (Radl) has the piperidine

moiety having m and n being 2 such that the piperidine moiety is always 4-substituted by S.

Allowable Subject Matter

7. Claims limited to the elected grouping free of all the above-cited rejections is free of prior art. The closest art is Radl (Arch Pharm Pharm Med Chem, Vol332, pp13-18, 1999) teaches similar compounds wherein the WXY ring is substituted phenyl. These compounds have been exempted out of the instant claims.
